February 2007

Dear Supporter,

Throughout the 126th General Assembly the Ohio League of Conservation Voters maintained its role as the political voice of Ohio's environmental movement. OLCV continued to work closely with all other environmental and conservation groups to fight for smart environmental legislation and to oppose legislation that if enacted would cause great harm to Ohio. Both the positive and the negative will be outlined throughout the 2006 Legislative Scorecard.

Two major issues stand out from the 126th G.A. –

First, S.B. 265, known as the Bad Air Bill, passed the legislature and was signed by Governor Taft. Despite opposition from a broad base of concerned citizens, other environmental groups and the American Lung Association, this piece of industry-crafted legislation was rushed into law. We believe the Bad Air Bill portends a major decline in the public health and environmental quality for Ohio communities by allowing increases in air pollutant emissions. Ohio needs to maintain and advance its pollution-control technology, not revert to federal standards established twenty years ago. OLCV is committed to working with the new Legislature and Governor over the next two years to develop a new statewide energy policy focusing on energy efficiency and renewable sources that will help to combat the negative effects of the Bad Air Bill.

The second major issue in 2006 was an opportunity for Ohio to have become the first state to enter into the Great Lakes Compact by passing H.B. 574. If enacted The Great Lakes Compact would protect the water in the Great Lakes from being sold and shipped to dryer parts of the country via a pipeline. OLCV applauds the Ohio House for drafting and passing H.B. 574. Unfortunately, even though the Compact garnered support from industry, the Governor's office, a wide range of environmental groups and the Speaker of the House, the measure died in the Senate without a vote largely due to opposition from one Senator, Timothy Grendell (R-18), who in the last few days of the year successfully sank H.B. 574 by radically misinterpreting basic property law. We look forward to working with the House early in 2007 to send the Compact back to the Senate for consideration.

As in every year, we hope that you will use this scorecard to contact your local legislators and let them know that protecting the environment is important to you as a citizen and voter. Each of you holds the ultimate power to determine the future of our state and its environmental policies. By joining together we can continue to fight for the future of our state and its precious natural resources. Your continued support and guidance is both needed and greatly appreciated.

Sincerely,

William P. DeMora
Executive Director

:: Who We Are

The Ohio League of Conservation Voters (Ohio LCV) is the only statewide bipartisan organization in Ohio dedicated exclusively to legislative advocacy and direct political action on behalf of the environment.

We opened our doors in November 1999 and began immediately to lead Ohio's environmental movement into the arena of politics and government. Our bipartisan board is comprised of members who saw the need for direct political action and legislative advocacy on behalf of conservation issues.

Ohio LCV has a diverse membership sharing a strong common purpose to elect and support environmentally responsible people to public office. Ohio LCV endorses candidates without political party preference.

We need your help to grow into the strongest possible force for Ohio's environment.

:: What We Do

- Work with elected officials and candidates to encourage them to use their legislative powers for the environment.
- Publish a legislative scorecard to grade members of the Ohio General Assembly.
- Evaluate candidates based on their commitment to conservation issues and publish a voter's guide.
- Support endorsed candidates through a variety of methods, including financial contributions from our affiliated PAC, grassroots organizing, and campaign assistance.
- Educate voters and give them the tools they need to support strong conservation candidates at the ballot box.

:: How You Can Help

- Become a member of the Ohio League of Conservation Voters.
- Make an additional contribution directly to the Ohio LCV PAC, enhancing our ability to work directly for conservation candidates.
- Contact your elected representatives to let them know you care about conservation efforts (We'll help you!).
- Vote for Ohio LCV endorsed candidates.

The Ohio League of Conservation Voters is uniquely positioned to educate public officials and the general public on the importance of environmental and conservation issues.

The Ohio LCV seeks to create a strong and effective environmental and conservation community in Ohio by enhancing the political consciousness of the environmental community, fostering coordinated advocacy efforts that reflect the priorities of the environmental community, and educating elected leaders about Ohio's environmental and conservation priorities.

:: Conservation Champions

The following legislators should be commended for having perfect environmental voting records for the 126th G.A. (2005-2006):

:: Senators

Teresa Fedor (D-11)
Eric Fingerhut (D-25)
Dale Miller (D-23)
*Sen. Miller spent 2005 as a member of the Ohio House and was appointed to the Senate in 2006
Ray Miller (D-15)
Tom Roberts (D-5)

:: Representatives

Joyce Beatty (D-27)
Catherine Barrett (D-32)
Tom Brinkman Jr. (R-34)
John Domenick (D-95)
Lance Mason (D-8)
Robert Otterman (D-45)
Michael Skindell (D-13)
Dan Stewart (D-25)
Tyrone Yates (D-33)
Kenny Yuko (D-7)

:: 2006 Standouts

These legislators had a perfect voting record in 2006:

:: Representatives

Kathleen Chandler (D-68)
Timothy DeGeeter (D-15)
Lorraine Fende (D-62)
Jennifer Garrison (D-93)
Mike Mitchell (D-26)

:: Conservation Leaders

These legislators would have been perfect but for being absent for one vote:

:: Senators

Robert Hagan (D-33)

:: Representatives

Kathleen Chandler (D-68)
Michael DeBose (D-12)
Steve Driehaus (D-31)
Joseph Koziura (D-56)

:: Missed Opportunities

There are a surprising number of legislators who missed opportunities to cast a vote in support of Ohio's environment:

:: Senators

Jeffery Armbruster (R-13)

Marc Dann (D-32)

Kirk Schuring (R-29)

Charlie Wilson (D-30)

:: Representatives

Charles Blasdel (R-1)

John Boccieri (D-61)

Kenneth Carano (D-59)

Courtney Combs (R-54)

Sally Conway Kilbane (R-16)

Tony Core (R-83)

David Daniels (R-86)

George Distel (D-99)

Diana Fessler (R-79)

Mike Gilb (R-76)

William Healy II (D-52)

Earl Martin (R-57)

Sylvester Patton (D-60)

Jeanine Perry (D-49)

Chris Redfern (D-80)

Kathleen Reed (R-58)

Derrick Seaver (R-78)

Shirley Smith (D-10)

Fred Strahorn (D-40)

Mary Taylor (R-43)

Joseph Uecker (R-66)

Peter Ujvagi (D-47)

John Willamowski (R-4)

Claudette J. Woodard (D-9)

:: Bottom of the Barrel

The following members had the worst environmental voting records for the 126th G.A.:

:: Senators

55% - Jeffery Armbruster (R-13)

:: Representatives

20% - Diana Fessler (R-79)

30% - Ron Hood (R-91)

30% - Derrick Seaver (R-78)

30% - Mary Taylor (R-43)

30% - Kathleen Reed (R-58)

40% - Courtney Combs (R-54)

40% - Sally Conway Kilbane (R-16)

40% - Mike Gilb (R-76)

40% - Jim Trakas (R-17)

40% - John Willamowski (R-4)

50% - Charles Blasdel (R-1)

50% - David Daniels (R-86)

50% - George Distel (D-99)

50% - Keith Faber (R-77)

50% - Bob Gibbs (R-97)

50% - John Hagan (R-50)

50% - Earl Martin (R-57)

50% - Thomas Patton (R-18)

50% - Linda Reidelbach (R-21)

50% - Joseph Uecker (R-66)

50% - Jeff Wagner (R-81)

50% - Shawn Webster (R-53)

:: Explanation of Scoring

Each legislator will receive a grade for votes cast in 2006 and a cumulative grade for the entire 126th General Assembly.

N/A – Rep. Foley was appointed to replace Rep. D. Miller in 2006 and will not be receiving a score. Sen. Kearney was appointed during the 126th G.A. and will only be receiving a score for votes cast during 2006. Sen. Stivers was on active military duty for a portion of the 126th G.A. and will only be receiving a score for votes cast in 2006. Rep. R. McGregor replaced Rep. Kearns during 2006 and will not be receiving a score.

X - Denotes a member was not present during the vote, a non-vote will be scored as a zero.

Legislation Used in Scoring

:: H.B. 149 (Calvert)

- Authorizes 20 nonrefundable tax credits per year against the corporation franchise tax or personal income tax for rehabilitating historic buildings.
- Provides that the credit equals 25% of rehabilitation expenditures, up to \$250,000 per historic building.
- Requires that the State Historic Preservation Officer establish a procedure for applying for, reviewing, and ranking applications for rehabilitation tax credit certificates.
- Requires pre and post-rehabilitation appraisals of rehabilitated buildings and an annual report on those appraisals to the General Assembly.

Rehabilitating our historic buildings is paramount to both preserving our past and encouraging smart and sustainable growth.

A YES VOTE IS A PRO-ENVIRONMENT VOTE.

:: H.B. 245 (Reinhard)

- Requires that half of all motor vehicles purchased for state agency fleets be capable of using alternative fuels.
- Requires that state agencies procuring vehicles give preference to qualified bidders who supply vehicles that use Ohio corn-based ethanol or Ohio soybean-based biodiesel fuel.
- Establishes an alternative fuel transportation grant program for the purchase and installation of alternative fuel refueling facilities and the purchase of certain grades of ethanol or biodiesel.
- Authorizes local school districts to purchase biodiesel for the operation of school buses and receive a subsidy from the Ohio DOE for such purchases.
- Requires that most diesel fuel contain at least two percent biodiesel.
- Authorizes the Ohio EPA to require the use of clean alternative fuel in covered fleet vehicles in counties identified as severe non-attainment for ozone.
- Establishes a local government vehicular fleet alternative fuel revolving loan program
- Requires part of the Ohio DOT's vehicle fleet and heavy equipment use biodiesel

House Bill 245 is a comprehensive piece of biofuels legislation. biofuels, such as biodiesel and ethanol blended gasoline produce lower emissions resulting in less fine particles, toxics, carbon monoxide, NOX, and unburned hydrocarbons being spewed into our atmosphere. HB 245 will help clean Ohio's air and boost development in Ohio's budding biofuels industry.

A YES VOTE IS A PRO-ENVIRONMENT VOTE.

Legislation Used in Scoring

:: H.B. 251 (Uecker)

- Provides for the creation of an interuniversity committee to develop guidelines for the boards of trustees of state institutions of higher education to use in ensuring energy efficiency and conservation in on- and off-campus buildings.
- Changes the Department of Development's Energy Efficiency Revolving Loan Program into the Advanced Energy Program for the purposes of providing advanced energy or economic development financial assistance.
- Provides that an "advanced energy project" must include technologies, products, activities, or management practices or strategies that facilitate the generation or use of electricity and that reduce or support the reduction of energy consumption or support the production of clean, renewable energy for consumers.
- Requires state vehicles capable of using an alternative fuel to use at least one million gallons of "blended biodiesel," instead of "biodiesel," per calendar year by January 1, 2007.

HB 251 offers important and responsible solutions to conserve our natural resources as well as begins to create a strong energy efficiency policy for Ohio.

A YES VOTE IS A PRO-ENVIRONMENT VOTE.

:: S.B. 265 (Spada)

- Cripples the 'Best Available Technology' provision of minor new source review.
- Removes the authority of Ohio EPA to tailor local solutions to solve local problems.
- Constrains Ohio EPA's authority to respond to air pollution situations that presented "an imminent and substantial endangerment."
- Precludes better environmental protection as technology advances.
- Mandates emission limits that do not protect public health and are not practically enforceable.

Ohio is currently home to twenty-six of the nations top two hundred most polluted cites and contains two in the top five. Sub. S.B. 265 is a very dangerous piece of industry-drafted legislation that will cause major harm to Ohio's already polluted skies. Ohioans deserve an environment that they can be proud of, not one they have to hide from during certain hours of the day.

A NO VOTE IS A PRO-ENVIRONMENT VOTE.

Legislation Used in Scoring

:: Amendment to S.B. 265 (Skindell/Hagan)

If adopted would have added consideration for the overall health and environment in Ohio when determining compliance with the rules established in S.B. 265.

A VOTE NOT TO TABLE IS A PRO-ENVIRONMENT VOTE.

:: H.B. 574 (Dolan)

If passed H.B. 574 would have entered Ohio into the Great Lakes Compact and provided a comprehensive and sustainable plan to manage the withdrawal of water from our Great Lakes. There is currently nothing preventing outside interests from withdrawing Great Lakes water and shipping it to other parts of the world. The Compact required four years of negotiation between eight Great Lakes states and two Canadian provinces. The Taft administration lead the way during this process and secured several key provisions within the Compact to protect Ohio's communities and industry. Unfortunately H.B. 574 was lost to inaction by the Ohio Senate.

A YES VOTE IS A PRO-ENVIRONMENT VOTE.

:: H.B. 583 / S.B. 323 (Peterson/Spada)

If passed H.B. 583 / S.B. 323 would:

- Prohibit schools (K-12) from purchasing elemental mercury; chemical mercury compounds and mercury added measuring devices for classroom use.
- Ban the sale of mercury-containing thermometers, except by prescription.
- Prohibits the sale or installation of mercury containing thermostats in Ohio.
- Prohibits the sale mercury added novelties.

This legislation takes a solid step toward protecting the public from unneeded mercury exposure.

A YES VOTE IS A PRO-ENVIRONMENT VOTE.
