

2010 Environmental Scorecard

The Oklahoma Chapter of the Sierra Club presents its annual Environmental Scorecard for the Oklahoma Legislature as an indicator of each legislator's commitment to environmental stewardship and clean energy development.

Each legislator's score is based upon his/her individual votes on issues of importance to the Sierra Club. While the scorecard is based largely upon legislation of particular importance to the Oklahoma Chapter of the Sierra Club, each legislator's grade includes other important factors such as introduction of bills supported or opposed by the Sierra Club, or leadership on specific issues.

The scorecard does not represent all legislation monitored by the Oklahoma Chapter of the Sierra Club during the 2010 Legislative session.

SCORECARD KEY

(+) = *Correct Vote*

(-) = *Incorrect Vote*

A = *Absence*

* = *Leadership/Introduced Positive Legislation*

^ = *Introduced Negative Legislation*

SB 831 (Opposed): Introduced in 2009 by Sen. Brian Bingman (R-Sapulpa) and Rep. Scott Martin (R-Norman) as the Nuclear Energy Incentives Act, SB 831 was brought up for reconsideration in the House during 2010, passed by a vote of 71-25, but failed to receive consideration in the Senate. SB 831 would have authorized developers of nuclear energy facilities to implement over-reaching cost recovery procedures for the planning, permitting, construction and decommissioning of such facilities in Oklahoma. Legislators in the House were graded on both committee and floor votes.

SB 1668 (Opposed): Introduced by Sen. David Myers (R-Ponca City) and Rep. Rex Duncan (R-Sand Springs), passed House by 70-20 and Senate by 27-19, but was vetoed by Governor Brad Henry (D). SB 1668 planned to amend the Oklahoma Municipal Power Authority Act to allow municipal power authorities to (1) purchase electricity generated by nuclear facilities, and (2) invest in nuclear facilities in Oklahoma. Legislators in both chambers were graded on committee and floor votes.

SB 1689 (Supported): Introduced by Sen. Susan Paddock (D-Ada) and Rep. Lisa Billy (R-Purcell), passed Senate unanimously but did not receive a hearing in House Appropriations. As passed by the Senate, SB 1689 sought to create the Oklahoma Water Center to implement the comprehensive water plan and conservation practices across Oklahoma.

SB 1962 (Supported): Introduced during Conference Committee by Sen. Clark Jolley (R-Edmond) and Rep. Seneca Scott (D-Tulsa), unanimously passed Senate but did not receive consideration in House. SB 1962 sought to authorize municipalities to create municipal energy district authorities to offer loans for energy efficiency and renewable energy upgrades to properties within their jurisdiction.

SB 2124 (Supported): Introduced by Sen. Mike Mazzei (R-Tulsa) and Rep. Jeff Hickman (R-Dacoma), passed House by 83-8 and Senate by 42-1. Incorporated language originally introduced by Rep. Dale DeWitt (R-Braman) extending incentives from Oklahoma Quality Jobs Act to alternative energy structure construction, solar reflective coating application and solar heating equipment installation.

HB 3015 (Supported): Introduced by Rep. Seneca Scott (D-Tulsa) and Sen. Tom Ivester (D-Elk City), passed House and Senate unanimously. HB 3015 authorized loans from the Agricultural Linked Deposit program for healthy corner stores marketing locally grown fruits, vegetables, and nutritious foods in areas underserved by grocery outlets.

HB 3028 (Supported): Introduced by Speaker Chris Benge (R-Tulsa) and Sen. David Myers (R-Ponca City), passed House 91-2 and Senate unanimously. HB 3028 established an energy policy in Oklahoma with a renewable energy goal of 15% by 2015, new fossil fuel facilities should be natural gas through 2020, and CNG fueling stations every 100 miles on the interstate system. Achieving a renewable energy goal was the top priority of the Chapter during the 2009-2010 legislative sessions.

HB 3219 (Opposed): Introduced by Rep. Sally Kern (R-OKC), passed House Committee, but no consideration on House floor. The worst environmental bill of the 2010 session, HB 3219 sought to prohibit enforcement of federal environmental regulations in Oklahoma, making it a misdemeanor for state employees to enforce federal regulations. Committee members received 10 penalty/bonus points for their vote.

HB 3173 (Opposed): Introduced by Rep. Jeff Hickman (R-Dacoma) and Sen. Mike Mazzei (R-Tulsa), originally sought to consolidate Scenic Rivers Commission with Conservation Commission and Dept. of Tourism. Passed House 78-18, but became part of a larger agency consolidation plan in the Senate regarding which the Oklahoma Chapter did not take a position.
