

**KEEPING SCORE FOR THE ENVIRONMENT SINCE 1979** 

MARYLAND LEAGUE OF CONSERVATION VOTERS

For more than 25 years, the non-partisan Maryland League of Conservation Voters has served as the political voice for the environment. We advocate for sound conservation policies, promote environmentally responsible candidates, and hold individual elected officials accountable through our scorecards and reports.

Administrative Assistant

We are proud to introduce the Maryland League of Conservation Voters' 2008 General Assembly Scorecard, which evaluates the conservation records for every one of our state Senators and Delegates. We've taken a long, hard look at the votes in Annapolis to show you exactly how your representatives are doing when it comes to protecting our air, land, and water.

This scorecard is all about YOU, the conservation voter, and is intended to give you the "real score" on your legislators at a time when it seems everyone claims to be an environmentalist. Are your elected officials representing your voice, or not? Take a look inside to see if your elected officials' dedication to protecting our environment matches your own.

We hope you will use this scorecard as a tool, and help us spread the word, because the more often we let our elected officials know that we are watching—and counting—their votes on environmental issues, the more power we have as conservationists. And with our state grappling with such serious concerns as global warming, energy use, transportation, growth and development, a still-polluted Chesapeake Bay, and waterways we need your help to speak out for the environment more than ever.

When you talk to your Senator or Delegates, let them know what you think of their conservation score. Is there reason for praise, or room for improvement? Send a letter to the editor of your local paper. Share your scorecard with a friend—visit our website at www.mdlcv.org to view it online or call us for an extra copy at 410-280-9855.

Once again, the votes in this scorecard were chosen by Maryland LCV's Board of Directors in conjunction with the great folks at Environment Maryland. We want to thank everyone who helped us with this year's scorecard and give particular thanks to hard-working board members Terry Harris and Dru Schmidt-Perkins,

our indefatigable designer Julie Burris, as well as our invaluable colleague Jennifer Bevan-Dangel.

Sincerely, Cindy Schwartz Executive Director

## **Senate Committee Votes\***

#### **Education, Health & Environmental Affairs**

SB 309 Global Warming Solutions Act This bill would have placed mandatory caps on global warming pollution. Yes is the correct vote. The bill passed 5–3.

**SB 710 Phosphorous Ban Delay** This bill allows a six-month delay of a ban on phosphorous in dishwasher detergent which Governor O'Malley signed in 2007. No is the correct vote. The bill passed 5–3.

**SB** 844 / **HB** 1253 **Critical Areas Act Reform** Strengthens the 1984 Critical Areas Act to limit development in buffers, reduce pollution, and provide cleaner water and wildlife habitat. Yes is the correct vote. The bill passed 7–1.

**SB 442 Clean Air Permit Fees** This bill increases the fees collected for air permits and helps pay for programs mandated under the Clean Air Act. Yes is the correct vote. The bill passed 6–3.

**HB 246 Standing** This bill would have allowed local governments to grant a broader class of citizens the right to challenge local zoning decisions in court. Yes is the correct vote. The bill passed 6–3.

\* Customarily, committee chairs do not always vote on bills before their committee. Accordingly, we do not score committee chair votes unless their decision not to vote alters the outcome.

SB 209 Renewable Portfolio Standard This bill will require that 20% of Maryland's energy consumption come from renewable sources such as solar and wind power by 2020. The correct vote is yes. The bill passed 6–4.

**SB 205 EmPOWER Maryland** This bill requires Maryland to reduce its energy consumption per capita 15% by 2015. Yes is the correct vote. The bill passed 7–2.

**SB** 268 **RGGI Pipkin/Kelley amendment** This amendment would have diverted all funds received through the sale of carbon allowances per the Regional Greenhouse Gas Initiative passed in the 2006 Healthy Air Act away from the Strategic Energy Investment Fund, which provides resources for energy efficiency programs. The correct vote is no. The bill passed 7–4.

**SB** 268 **RGGI Garagiola/Astle amendment** This motion reconsidered the Pipkin/Kelley amendment so that a portion of the funds from the sale of carbon allowances would go toward the Strategic Energy Investment Fund as intended. The correct vote is yes. The bill passed 7–4.

## **Senate Floor Votes**

**SB 309 Global Warming Solutions Act (GWSA) Exum amendment** This weakening amendment would have limited the Maryland Department of the Environment's current authority overseeing programs to reduce pollution. The correct vote is no. The amendment passed on the Senate floor 27–20.

SB 309 Global Warming Solutions Act (GWSA) Pinsky amendment This amendment was offered on the Senate floor to clarify the Exum Amendment and allow the Maryland Department of the Environment to maintain its existing authority. The correct vote is yes. The amendment failed on the Senate floor 22–24.

SB 268 Maryland Strategic Energy Investment Program (RGGI 1) Creates a fund to finance energy efficiency programs through the sale of carbon allowances per the Regional Greenhouse Gas Initiative (RGGI). The correct vote is yes. The bill failed 21–25.

SB 268 Maryland Strategic Energy Investment Program (RGGI 2) The earlier RGGI vote was reconsidered and the bill was amended to allocate more resources for energy efficiency programs. The correct vote is yes. The bill passed the Senate 30–17.

**HB 1253 Critical Areas Act Reform** Strengthens the 1984 Critical Areas Act to limit development in buffers, reduce pollution, and provide cleaner water and wildlife habitat. The correct vote is yes. The bill passed the Senate 41–6.

SB 844 / HB 1253 Critical Areas Act Reform (Colburn amendment) Changes the definition of the critical area buffer where development cannot take place from 300 feet to 200 feet. No is the correct vote. The amendment passed in the Senate 32–14.

SB 209 Renewable Portfolio Standard (RPS) This bill will require that 20% of Maryland's energy consumption come from renewable sources such as solar and wind power by 2020. The correct vote is yes. The bill passed 31–14.

SB 710 Phosphorous Ban Delay amendment (Frosh amendment) This amendment imposes a fine for dish detergent manufacturers in exchange for a six-month delay in the ban. The correct vote is yes. The amendment failed 23–23.

**HB 1056** Wetlands and Waterways Permit Fees Creates a fund to support Maryland Department of the Environment's Wetlands and Waterways programs. The correct vote is yes. The bill passed 37–10.

HB 1185 Fare Box Recovery Requires Maryland Transportation Authority to recover at least 35% of their transit operating costs from fares, which will encourage better mass transit options. The correct vote is yes. The bill passed 35–11.

#### **House Floor Votes**

HB 374 EmPOWER Maryland This bill requires Maryland to reduce its energy consumption per capita 15% by 2015. Yes is the correct vote. The bill passed 106–34.

**HB 374 EmPOWER Maryland (Shank amendment)** This weakening amendment would have required consumers to provide written consent before energy suppliers provide energy efficiency programs to their customers. The correct vote is no. The amendment failed 41–92.

**HB 368** Maryland Strategic Energy Investment Program (RGGI) This bill creates a fund for energy efficient programs. The fund will be financed through the upcoming sale of carbon allowances to power plants as part of the Regional Greenhouse Gas Initiative (RGGI). Yes is the correct vote; the bill passed 112–29.

HB 1253 Critical Areas Act Reform Strengthens the 1984 Critical Areas Act to limit development in buffers, reduce pollution, and provide cleaner water and wildlife habitat. The correct vote is yes. The bill passed 115–22.

**HB369** Chesapeake Bay 2010 Trust Fund This bill implements the \$50 million dedicated trust fund approved during the 2007 special session. Yes is the correct vote. The bill passed 118–17.

HB 375 Renewable Portfolio Standards (RPS) Increases the amount of renewable energy in Maryland from 9.5% to 20% by 2020. Yes is the correct vote. The bill passed 107–34

**HB 1189 Phosphorous Ban Delay** Delays for six months the implementation date of the phosphorus ban passed in 2007. No is the correct vote. The bill passed the House 109–25.

**SB** 442 Clean Air Permit Fees This bill increases the fees collected for air permits and helps pay for programs mandated under the Clean Air Act. The correct vote is yes. The bill passed 96–39.

**HB 1193 Statute of Limitations** This bill creates a standard three-year period for the government to bring suit for violations of environmental laws. The correct vote is yes. The bill passed 105–31.

HB 1056 Wetlands and Waterways Permit Fees

Creates a fund to support the Maryland Department of the Environment's Wetlands and Waterways programs. The correct vote is yes. The bill passed 125–10.
